

CR FG SERIES

SYNTHETIC COOLER CHAIN LUBRICANTS FOOD GRADE & KOSHER APPROVED

TECHNICAL DATA

PRODUCT APPLICATION

Specially formulated for cooler rack chain applications in the baking industry where incidental food contact may occur. The lighter weight viscosity prevents chains from stretching caused by excess loads of build-up from flour, sesame seeds and other airborne debris sticking to the chain. **CR FG** series provides maximum protection in extremely tough environments for all cooler rack chains.

PRODUCT FEATURES

- Out performs other lubricants and significantly reduces lubricant consumption.
- Approved by the U.S.D.A. for H-1 applications (lubricants with possible food contact) and comply with the requirements of F.D.A. 21 CFR 1778.3570.
- Kosher approved with the Union of Orthodox Jewish Congregations of America.
- Colorless, odorless and manufactured from high quality Hydrocarbon base stock and selective additives for enhanced performance.
- Superior anti-wear additives to protect chain from seizure and wear and provides good adherence to the chain or metal surfaces.
- Enhanced rust, oxidation and corrosion inhibitors preventing gumming, varnishing and rusting.
- Available in 5 gallon pails or 55 gallon drums.
